SUMMARY

Aspiring Computer Science student (B.Tech, HITS Chennai) with full-stack development experience across the MERN stack and a strong foundation in Java and DSA. Designed and deployed production-grade web applications integrating RESTful APIs, payment processing, and deep learning models, with a focus on building scalable, user-centric software solutions.

TECHNICAL SKILLS

Languages: Java, Python (Basics)

Web: React.js, Node.js, Express.js, HTML5, CSS3, JavaScript, Bootstrap

Databases: MySQL, MongoDB

AI / ML: TensorFlow, ResNet-50, Transfer Learning, OpenCV

Tools: Git, GitHub, VS Code, Excel

Additional: Problem Solving, Debugging, Communication

EXPERIENCE

Data Science & AI/ML Intern

Jul 2024 – Aug 2024

Ybi Foundation (Remote)

- Analyzed real-world datasets to perform data cleaning, exploratory analysis, and visualization.
- Investigated patterns and derived insights to support data-driven decision-making.

Digital Marketing Intern

Jul 2023 – Aug 2023

Delvin Formulations, Chennai

- Executed online marketing strategies encompassing SEO, social media marketing, and content creation.
- Contributed to campaign planning and supported content distribution across digital platforms.

PROJECTS

Full-Stack Food Delivery Web Application | *React.js, Node.js, Express.js, MongoDB, Stripe* | [Link](#)

- Engineered a full-stack food delivery platform enabling users to browse menus, manage cart operations, and place orders online.
- Built an interactive frontend with React.js and designed RESTful APIs using Node.js and Express.js for backend services.
- Integrated MongoDB for efficient data storage and Stripe for secure payment processing, ensuring reliable order management.

Taxonomy Classification — Deep Learning | *Python, TensorFlow, ResNet-50, OpenCV*

- Developed a deep learning model to automate taxonomic classification of organisms from biological images using ResNet-50.
- Applied transfer learning and computer vision techniques to improve classification accuracy across biological categories.

EDUCATION

Hindustan Institute of Technology and Science

Chennai, India

B.Tech in Computer Science and Engineering — CGPA: 8.1

2022 – Present

Nellai Nadar Matriculation Higher Secondary School

Chennai, India

Higher Secondary (XII) — HSC — Percentage: 84.3%

2022

PUBLICATIONS

Deep Learning-Based Bird Species Classification Using ResNet-50

2026

8th International Conference on Intelligent Sustainable Systems (ICISS)

IEEE Xplore

- Authored and presented a research paper on ResNet-50 based framework for automated bird species classification.
- Achieved 96% classification accuracy across 15 bird species through transfer learning and data augmentation.
- Published on IEEE Xplore: [View Publication](#)
